Thanks for Attending My South Alabama Town Meetings:

Last week (May 16-19), my staff and I traveled to 14 cities throughout Southwest Alabama for Congressional town meetings. Not surprisingly, there was a lot of discussion about high gas prices, the overall state of the economy, the future of Medicare and Social Security and efforts to address the $14.2 trillion federal debt.

I want to thank everyone who turned out. I also would like to personally thank Congresswoman Terri Sewell, D-Birmingham, who participated in a joint town meeting with me in Grove Hill on May 17. Clarke County is divided between the First and Seventh Congressional districts and this was our first combined town hall meeting.
