

MOBILE – Congressman Jo Bonner, R-Alabama, issued the following statement about two suspicious letters that were received in his district offices.

“On Monday morning, January 4, 2010, my Mobile and Foley congressional offices each reported receipt of suspicious looking letters containing a powdery white substance. Law enforcement was promptly notified and security precautions were undertaken while the contents of these letters were examined.

“Official tests of the two letters have found nothing harmful, and my Mobile and Foley offices have since been cleared. My Mobile congressional office at 11 North Water Street, Suite 15290, has reopened, and my office at 1302 North McKenzie Street in Foley will be open for business on Tuesday morning.

“I wish to thank local, state and federal law enforcement officials for their immediate response and am grateful these letters ultimately posed no threat to the public.

“My office is continuing to cooperate with law enforcement as they investigate this incident and others statewide.”
