

WASHINGTON – Congressman Jo Bonner, R-Alabama, issued the following statement about the passage of the Democrat health care bill.

“Tonight, a stake was put through the heart of both freedom and liberty.

“Under the Democrat’s rule, personal responsibility no longer appears to be an American virtue. And the federal government, with 16,000 new IRS agents, will be watching our every move.

“With a national debt over \$12 trillion, and growing every minute, this is not a day for celebration; it is a moment we will all one day come to regret.”
