

WASHINGTON—Congressman Jo Bonner (R-AL) today announced he will attend the Gulf Coast Energy Forum at the Arthur R. Outlaw Mobile Convention Center in Mobile on Monday, February 13, 2006.

The half-day event will feature government officials and industry representatives to discuss high energy costs, the threat they pose to business and economic development across the Gulf Coast, and the best solutions for improvement.

Representatives of the Cambridge Energy Research Associates, the American Petroleum Institute, the American Gas Association, and large and small business consumers of natural gas will make presentations and offer a question and answer session. Governor Bob Riley (R-AL) is also scheduled to attend.

“The Gulf Coast Energy Forum will be a valuable tool in helping community leaders from all across the Gulf Coast to better understand our highly dynamic energy picture, which is critical in building an economically robust Gulf Coast.”

For more information on the Gulf Coast Energy Forum, please contact Ginny Russell with the

Mobile Area Chamber of Commerce at 251.431.8618.
