

MOBILE - U.S. Rep. Jo Bonner, R-Alabama, today announced the award of funding to the Mobile Fire-Rescue Department from the United States Department of Homeland Security and the United States Fire Administration. The grant, totaling \$501,265, is being made available through the USFA's Assistance to Firefighters Grant Program and will be used for emergency medical services.

"I am extremely pleased the Department of Homeland Security has approved this funding for the Mobile Fire-Rescue Department," Bonner said. "Mobile and its residents are to be strongly commended for their work in recent years in strengthening their own department and, through that process, providing a greater degree of safety and fire prevention for their community."

The Assistance to Firefighters Grant Program provides one-year grant funding to local fire departments to assist them in improving their ability to respond to fire-related and other emergencies in their communities. The funding is used primarily in four major program areas: Fire Operations and Firefighter Safety, Fire Prevention, Emergency Medical Services and Firefighting Vehicles Acquisition. Through twenty-four rounds of grant awards this year, the Fire Administration has awarded over 6400 grants totaling more than \$478 million.
